

#4-LEG 3 LOADING BOATS IN SHARJAH

1	I do not know what the situation on the ground is but on loading day in Sharjah please try and record some footage of of your boat being loaded onto the ship. Remember, its not secret in this location and we are desperate for some content.
2	This is my best suggestion - if you know that your boat will be the last to load work with the other MCM's to put together a combined boatfeed from all of the boats, around 4 minutes and send to us via Newscaster. Big ask I know and if anyone has a better suggestion I'm all ears.

#5-LEG 3 UNLOADING BOATS AT LOCATION A

1	I do not know what the situation on the ground is but on unloading day in secret Location A please try and record some footage of of your boat being unloaded from the ship. Remember, its secret in this location so try to keep the footage somewhat generic.
2	As soon as your boat is back in the water and your team gets things switched on, please send us a 2 minute boatfeed of the unloading process
